DETAILED ACTION

Election/Restrictions

This application is a 371 of PCT/FI00/00131. For applications filed under 371, PCT rules for lack of unity apply.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-29, drawn to biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a drug (medicine).

Group II, claim(s) 1-25, and 27-29 drawn to drawn to biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a protein.

Group III, claim(s) 1-25 and 27-29, drawn biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a hormone.

Art Unit: 1615

Group IV, claim(s) 1-25 and 27-29, drawn to biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a living or dead cell.

Group V, claim(s) 1-25 and 27-29, drawn to biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a bacteria.

Group VI, claim(s) 1-25 and 27-29, drawn to biodegradable silica fiber that contains a biological agent, the process of making the biodegradable fiber containing said biological agent and the method of use of the biodegradable fiber comprising the biological agent where the biological agent is a virus.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: A drug or medicine differs a protein or hormone or living or dead cell or bacteria or virus. A protein may no be a drug or hormone pr living cell or dead cell or bacteria or virus. Accordingly, restriction is proper.

2. A telephone call was made to James C. Lydon on 12/18/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

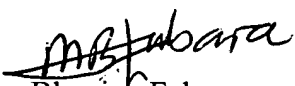

Art Unit: 1615

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
